

This is in response to the broadcasting of K Love radio. It has been an instrumental part of my life for the past 7 years. I would not be alive today if Christian radio had not been on the air. I have supported K Love financially for 3 years now and know many people and businesses who listen to this station and play it in their office or place of business. It saves lives and helps many people through difficult situations in their lives. We need a positive influence on the air ways for us and future generations. Thanks, Marta Nilsen
